

Sordin Supreme Pro-X Neckband

Electronic hearing protector for hunting and shooting

Neckband

DESCRIPTION

Sordin Supreme Pro-X Neckband is an electronic hearing protector designed specifically for hunting and shooting. The neckband offers a comfortable fit as it reduces the pressure on the head, while offering safe noise attenuation. It uses digital audio technology to compress impulse noise to a secure level of 82 dB(A), while harmless surrounding sound is amplified and volume controlled using an external keypad on the right-hand cup.

Sordin Supreme Pro-X Neckband is renowned for its extremely robust design and superior audio quality. The ambient sound is reproduced naturally and with high directional sensitivity. These capabilities help hunters not only to safely protect their hearing, but also improve their ability to detect even very faint sounds coming from game animals.

AVAILABLE IN

KEY FEATURES

Neckband comfort	Comfortable fit due to reduced pressure on the head
Cup design	Slim design, suitable for both right- and left-handed shooters
Maximum 82 dB	Loud impulse noise automatically compressed to maximum 82 dB
Audio system	SordinHEAR2 offers excellent sound quality and four audio profiles – Hunting, Shooting, Focus and Comms
Ambient sound	Amplifying harmless ambient sound while protecting against harmful noise
Audio input	3.5-mm AUX input for connection of an external digital device such as a mobile phone or hunting radio
Audio quality	High audio quality, natural ambient sound reproduction
Warranty	5-year warranty (electronics only)
External keypad	Easy-to-use push buttons to operate the electronic functions
Waterproof microphones	The externally mounted microphones are water proof (IP 67 tested)
Auto power off	Automatic switch-off after 4 hours if no button has been pressed, saving battery time
Low battery warning	Low battery warning when approximately 40 hours is left of the battery time
Robust electronics	The electronic circuits are encapsulated in multiple layers of lacquer and polymer for increased robustness

MATERIALS

Neckband	Stainless spring steel
Neckband net	Polyethylene
Cups	ABS
Inserts	Polyether foam
Sealing cushion	PVC foam TPU (Thermoplastic Polyurethane) foil covered, HTPB (Hydroxyl Terminated Polybutadiene) filling

TECHNICAL INFORMATION

Batteries	2 x 1.5 V AAA/LR03, estimated operating time is around 400 hours
Level Dependent microphone frequency response	100 Hz – 10 KHz
Loudspeakers / loudspeaker response	2 x 32 Ohm / 20 Hz – 20 KHz
Operating conditions:	-20°C to +50°C
Max audio signal allowed from the connected radio to not exceed 82 dB(A) through the speakers	399 mVrms
Weight (excluding batteries)	277 gram
Complies with following environmental directives	RoHS, WEEE

EN APPROVAL

Tests and certificates

Tested to EN 352-1:2002, EN 352-3:2002, EN 352-4:2001 and EN 352-6:2002.
 EMC tested to EN 55032, EN 55024 and EN 61000.
 Certificate: CE 747888
 Notified Body: BSI Netherlands (NB 2797)

AUDIO PROFILES MODE DESCRIPTION

The Sordin excellent sound system – SordinHEAR2, is integrated in the latest Supreme models Pro-X and Pro-X LED (2023 editions). At its heart – four new audio profiles that further enhance your sound experience.

Hunting

Hunting is the main audio profile for general purposes. The sound image is optimized for a normal hunting day, balancing clear ambient sound such as speech with comfortable low-noise audio.

Shooting

Shooting is a comfort profile with lower gain and a narrower audible frequency spectrum. Perfect when normal situational awareness is sufficient, e.g. in shooting training at the range.

Focus

Focus is your full-alert profile. It features high amplification and a wider frequency spectrum for highest situational awareness. Use this audio profile e.g. in the hunting tower to sharpen your senses before your shot.

Comms

In Comms, ambient sound is deactivated and your hearing protector uses passive protection only. However, the 3.5-mm AUX input is active allowing for clear communication even in noisy environments.
